

## Sniper I Course

This three day course will provide a solid foundation in the fundamentals of rifle marksmanship, mechanics of the weapon system, scope systems, ballistics, positional shooting and range estimation. Other areas of instruction include policy and equipment recommendations, the data book. At the conclusion of this course the student will be able to set up their weapon system, zero the weapon, determine distance to targets and successfully engage those targets. Students will be required to pass the FBI's Sniper qualification course to graduate.

### Required Equipment:
